Instructions for Writing Your Technical Paper

For your Technical Paper to be published in the Digital Congress Proceedings, it must adhere to FISITA's Technical Paper Template and have the correct margins, font, layout etc. Please follow these instructions closely, and check your paper carefully before uploading it. If your paper is not prepared using the correct layout and format, or if it is not in accordance with your abstract in technical content, it may not be included in the Digital Congress Proceedings.

Either use **Templates** to format your Technical Paper or the **Styles** described below.

Language: English only.

Length: Suggested length: 4-6 pages. Maximum length: 8 pages.
